## PROFILE

A dynamic professional with a Bachelor's degree in Chemical Engineering, I seamlessly transitioned from a strong foundation in engineering to a burgeoning interest in data science. During my academic journey, I actively organized college events, fostering my organizational and interpersonal skills.

Fuelling my passion for technology, I immersed myself in social media marketing, acquiring proficiency in C++, Python, SQL, and mastering data visualization with Power BI. This hands-on experience not only enhanced my analytical mindset but also equipped me with a diverse skill set crucial for data-driven decision-making. Now poised to pursue a career in data science, I bring a unique blend of technical acumen and soft skills. My adeptness in leveraging programming languages and data visualization tools, combined with a solid engineering background, positions me as a versatile professional ready to excel in this dynamic field.

## EDUCATION

### Bachelors in Chemical Engineering, Visvesvaraya National Institute of Technology

2017-2023

CGPA: 5.48 of 10

### HSC, Arts, Commerce & Science Jr. College, Koradi
